Office Action Summary		Examiner	Art Unit			
	Office Action Summan	10/716,666	ERISMANN, MARK			
		Application No.	Applicant(s)			

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- 2. Claims 1-4, 6, 8, and 12-29 are rejected under 35 U.S.C. 102(a) as being anticipated by Erismann (6,624,347).

Regarding claim 1, Erismann discloses a string tensioning system for a string instrument having an instrument body (6), at least one tensionable string (4) that is fixed on at least one end at a fixing point (30 in Fig. 13), and a chamber (the chamber hosting the screw 26 in Fig. 13) accommodating a portion of the at least one tensionable string positioned between a string introduction aperture (Fig. 13 shows an unnumbered aperture showing string 4 going through) and the fixing point (Fig. 13), the system comprising: at least one string tensioning device (26, 28) adjustable from outside the instrument body, wherein the at least one string tensioning device is at least partially arranged in the chamber of the instrument body (Fig. 13); the at least one string tensioning device comprising a tensioning screw (26) and a string tensioning head (28); the tensioning screw extending into the chamber (Fig. 13); the string tensioning head being connectable to the portion and being movable by rotating the tensioning screw (Fig. 13, and col. 8, lines 57-60); the chamber comprising free spaces on opposie sides of the string tension head (Fig. 13).

Regarding claims 2-4, 12-15, Erismann discloses the claimed invention (Fig. 13).

Application/Control Number: 10/716,666

Art Unit: 2837

Regarding claims 6 and 8, Erismann discloses the claimed invention (251, 252 and Fig. 13).

Regarding claims 16-23, Erismann discloses the claimed invention (Figs. 13 and 14, and pine 10, slot 9).

Regarding claims 24 and 25, see above statement.

Regarding claims 26-29, the method steps are inherent in the device discloses in the reference.

- 3. Claims 5, 7, 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claim 5 that the guiding body comprises oppositely arranged slot shaped recesses, wherein the slot shaped recesses accommodate movement of the portion of the string, in claim 7 that at least one guiding sleeve comprises oppositely arranged slots which accommodate the portion of the string, and in claim 9 that at least one slot formed on an end of the instrument, wherein the at least one slot communicates with the chamber as set forth in the claimed combination.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shih-yung Hsieh whose telephone number is 571-272-2065. The examiner can normally be reached on 7:00-3:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
